Dear Mrs. West:

I have your letter of October 15th and it seems to me that the complications connected with your parcel of land covered by the option are so great that it would be very unbusinesslike to proceed any further until this matter is straightened out.

I have already paid Mr. Wilson \$100 that he put up for the option. My only object for offering to take up the land now and complete the sale was to help you out but I do not feel like advancing \$400 with the title of property so imperfect as your letter indicates this title is. Whenever this title is clear I am perfectly willing and ready to pay the balance of \$700.

Cordially yours,
